# The TASSO principle: Marking and registration

## Protection and safety for your pet

For us, animal welfare begins with the identification and registration of your pet. Protecting missing animals from permanent disappearance – that is the central task of the TASSO e.V. pet registry. For more than 40 years, we have been dedicated to the return of missing animals – and we have done so successfully: Every year, with our free service, we are able to return more than 95,000 animals to their happy owners.

In addition, TASSO is active in animal welfare at home and abroad, conducts educational work, and supports animal adoption with its online animal shelter ‚shelta‘.

# Important information from TASSO e.V.

The following information provides an overview of the free registration of your pet in our database (Section I). Detailed information on data protection can be found in our privacy policy listed below this text (Section II).

## I. General information about the free registration of your pet

### Registration

1. Registering your pet with the TASSO e.V. pet register is free of charge. There are no follow-up costs. This also applies to all other services. TASSO e.V. finances its animal welfare work through voluntary donations. To give pet owners the opportunity to support TASSO e.V.'s diverse animal welfare efforts, a bank transfer form is usually included in written correspondence. Online donations are also possible at any time via the TASSO website.

2. The data provided to TASSO e.V. is subject to data protection regulations (for details, see Section II. Privacy Policy). TASSO e.V. assumes no liability for the accuracy of the transmitted data. This data is not verified.

### Confirmations

3. Once the relevant data has been saved by TASSO e.V., you as a pet owner will receive a registration confirmation and a free animal ID card by mail. Dog owners will also receive a TASSO ID tag. If an e-mail address is entered in the registration application, you will also receive a confirmation e-mail. This e-mail will list all the pet and owner information you provided during registration. This allows you to clearly see the information you provided and promptly report any errors to TASSO. It also allows you to attach the confirmation e-mail to your pet's records immediately after registration.

4. IMPORTANT: TASSO e.V. cannot register you if the registration application is not completely filled out and submitted. If you haven't received a confirmation by e-mail or by mail within four weeks of submitting your registration application, you can check online at [www.tasso.net/Transponderabfrage](http://www.tasso.net/Transponderabfrage) to see if your animal has already been registered. Alternatively, please contact TASSO e.V. on weekdays between 10 a.m. and 6 p.m. to ensure that your animal has been properly registered.

### Changes

5. If you, as a pet owner, transfer or sell your animal, the new owner must provide TASSO e.V. with the current owner information as soon as possible. Ideally, this should be done directly by the new owner to ensure the animal is fully protected. If new ownership is not reported to TASSO e.V., or if the change of registration

is still pending, this may result in a lost animal being returned to its previous owner. Without current owner information, we cannot return the found animal.

6. If the animal has died, this should also be reported as soon as possible.
